

Keep your Puppy Healthy for Less

Why does your puppy need a Wellness Plan?

The most dangerous age for your pet is day one to sixteen weeks of age. Protect your puppy with our Core Puppy Package.

In addition to vital examinations, vaccines and deworming, we will be more than happy to consult on nutrition, behavior, house training, parasite protection, reproductive, and dental health. On your first visit, you will receive a sample bag of puppy food and a folder containing informative pamphlets on raising your new puppy. Non-refundable and Non-transferable.

Our “PUP”tection Puppy Package Includes

3 Pediatric Wellness Exams
(8, 12 and 16 weeks of age)

3 Distemper/Parvo Vaccines

2 Leptospirosis Vaccines

3 Dewormings

1 Rabies Vaccine at 16 weeks

6-mth Complimentary Dental Exam

Prevention is the key to better health!
